PET Name Tags - All Sizes

The following templates are for our range of printed rPET plastic name tags:

See: https://ezitag.com/product-category/name-tags/pocketless-plastic/
Single Side & duplicate names on the reverse need to only use the 'FRONT' template - one artwork only

Tips for your Name Tag Artwork

Vector or high res logos give the best print results
Outline generic text or provide us with the font files
Embed any images
DO NOT outline your variable data - we need to know what font & size you would like your data
Text and Logos need to be inside the critical area print lines
Position of your variable data (names etc) will change depending on your final data merge
Templates show slot position which is the same for the hole option (not critical print in this area of the name tag)
