OUR TEAM

We asked some of our team a few questions, so you could get to know them!

Sarah

- Team member with EziTag for 6+ years.
- Fave product is anything UV printed as the quality is great!
- I'd like to see more training across the promo industry which would improve the workflow.

Sarah - Sales

Christian

- Team member with EziTag for 2+ years.
- Fave products fabric wristbands & waffle tea towels. But...I do like to bounce the LED light up balls!
- I'm a laidback guy so I'm pretty happy with the industry as it is!

Christian - Sales

Claire

- Team member with EziTag for 2+ years.
- Fave product are lanyards. A new colour and pattern for every day of the week! 🌈
- I'd like to see less formal emails and more fun emojis

Claire - Graphics

Carol

- Team member with EziTag for 12+ years.
- Fave product changes every week depending on what I am working on - love them all!
- I'd like to see more Australian manufacturers of our raw stock.

Carol - Product Development

REVIEWS

EziTag is the best company for Name Tags I have worked with anywhere in the world! They are the only company I will use when holding meetings in Australia!!!

Joe Dymek

Fantastic team to work with - even for the smallest of orders. Great attention to detail, and great communications. Artwork is kept on file for a minimum of 12 months, so ordering additional runs is a breeze.

Rob Masters

Absolutely everyone at Ezi Tag has been wonderful to work with! Super friendly and efficient - they have been a pleasure to work with and I can't wait for our name badges to arrive.

Jess Rossiter

Absolutely amazing to get me out of trouble with an express job that I thought no hope prior to Xmas. Sarah was exceptional to deal with and I personally thank her and the production team so much. Thoroughly recommend, do not hesitate!

Kevin Curtis

Attachments are STITCHED!

Pisces Lanyards rPET Fabric

Product Codes: LPPET (no breakaway) & LPPETBA (with breakaway)

QUICK GUIDE TO LANYARDS

How to work out what lanyard you need!

Print

Sublimated Lanyards are a smooth ribbon & full colour which allows for complex graphics. You can PMS match all aspects of sublimated lanyards.

Screen-printed Lanyards are ribbed fabric & allow for 1-3 colour logos only. We have a range of stock colour lanyard ribbon including rainbow. You can PMS match your lanyard colour with a dye charge.

Width

Lanyard widths are 15mm, 20mm & 25mm

Fabric

Sublimated lanyards are available in 100% polyester & rPET fabric

New to our full-colour range are our 100% **biodegradable paper lanyards**

Screen-printed lanyards are polyester, rPET and Bamboo

Attachments

Lanyards can have single or double attachments. Before ordering, make sure you check what is being attached to the lanyard. Our most common attachments are Carabiner or Alligator Clip. Do you need a safety breakaway? These can be at the back of the neck or side!

IMPORTANT NOTE:

Off-shore lanyards will always be **STITCHED**

Taurus lanyards will be **CRIMPED or SEALED** - you can request your preference if you have one

Lanyards with Quick-Release & Reels will be **SEALED** as standard.

Breakaways on 25mm wide lanyards will be **SEALED**.

What is SEALED?

High-frequency vibrations to generate friction and heat, causing the fabric to melt and fuse together, creating a strong, sealed seam without the need for traditional sewing.

SEALED

CRIMPED

STITCHED
